

PRIYANSHU PRAMANIK

Junior Frontend Developer

+91 7992394857 | priyanshu1998@aol.com | India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Frontend Developer with 1+ years of experience developing responsive user interfaces using HTML5, CSS3, and JavaScript. Skilled in implementing UI components from design specifications with pixel-perfect accuracy. Experienced with ReactJS as a modern frontend framework, version control using Git and GitHub, and integrating frontend with API services. Collaborative team player with a solid grasp of responsive design principles, cross-browser compatibility, and a passion for continuous learning and code quality.

PROFESSIONAL EXPERIENCE

Frontend Developer (Freelance)

May 2025 – Jun 2025

Altoura

India (Remote)

- Developed responsive user interfaces using HTML5, CSS3, and JavaScript, translating UI/UX design specifications into pixel-perfect, functional web pages.
- Implemented UI components following provided design specs, ensuring visual accuracy and consistency across all screen sizes and devices.
- Integrated frontend components with backend API services and verified seamless data communication post-deployment.
- Performed cross-browser troubleshooting and fixed UI bugs to ensure consistent rendering across Chrome, Firefox, Safari, and Edge.
- Optimised page performance and applied modern JavaScript techniques to enhance interactivity and user experience.

Web Development Intern

Jul 2023 – Dec 2024

Vyasticreation

Ranchi, JH (Remote)

- Built 30+ responsive landing pages using HTML, CSS, and JavaScript, adhering strictly to brand guidelines and design specifications.
- Implemented custom UI components and JavaScript animations to match design mock-ups with precision and enhance user engagement.
- Collaborated with the design team to review and refine UI implementations, improving code quality and expanding frontend knowledge through iterative feedback.
- Troubleshooted and resolved UI issues across multiple browsers and devices, applying responsive design principles to ensure cross-platform consistency.
- Used Git and GitHub for version control, managing code changes and maintaining clean project history throughout development cycles.

KEY ACHIEVEMENTS

- Received direct client commendation from Altoura for pixel-perfect UI implementation, responsive design accuracy, and successful on-time project delivery.
- Successfully delivered 30+ brand-compliant landing pages at Vyasticreation with zero major revisions, demonstrating strong attention to design specifications.
- Consistently resolved cross-browser UI bugs and performance issues, improving page reliability across all major browsers.
